PROGRESSIVE SCAN

SAFETY INFORMATION

TO REDUCE THE RISK OF FIRE AND ELECTRIC SHOCK, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE.

CAUTION: To reduce the risk of fire and electric shock, do not remove the cover (or back) of the unit. Refer servicing only to qualified service personnel.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operation and servicing instructions in the literature accompanying the appliance.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

IMPORTANT SAFEGUARDS

In addition to the careful attention devoted to quality standards in the manufacture of your video product, safety is a major factor in the design of every instrument. However, safety is your responsibility, too. This sheet lists important information that will help to assure your enjoyment and proper use of the video product and accessory equipment. Please read them carefully before operation and using your video product.

Installation

Read all instructions carefully, even if you are familiar with the appliance.

1. This appliance is not intended for use by children or infirm persons without supervision.
2. Children should be prevented from playing with the appliance.
3. This appliance should be placed on a dry, level surface before it is operated.
4. **INDOOR USE ONLY** this appliance is not intended for outdoor use.
5. Do not expose this appliance to rain or moisture. Do not immerse the appliance in water or any other liquid.
6. Do not place items filled with liquids, such as vases, on the appliance. Do not expose the appliance to dripping or splashing liquids.
7. This appliance is not intended for use in bathrooms, laundry areas or similar moist locations. Never locate this appliance in the immediate surroundings of, or where it may fall into, a bath, basin, washtub, shower or swimming pool.

8. Do not place naked flame sources, such as candles, on the appliance.
 9. Do not locate the appliance or cord near heat sources such as radiators, heaters, air ducts or direct sunlight.
 10. Do not block any of the ventilation openings. Ensure that vents are not covered by newspapers, tablecloths, curtains, etc. Do not install in a tight-fitting cabinet.
 11. Do not insert or allow foreign objects to enter any grille openings.
 12. Do not run the cord under carpeting. Instead, arrange the cord away from traffic areas where it will not become a trip hazard.
 13. To disconnect the appliance, turn the appliance off, switch off the power outlet and remove the plug from the power outlet.
 14. Do not misuse the cord. Never carry the appliance by the cord or pull to disconnect it from the outlet. Instead, grasp the plug and pull to disconnect.
 15. Do not operate the appliance if it has a damaged cord or plug; after the appliance malfunctions; or has been dropped or damaged in any way. Consult Singer for examination.
 16. Use of controls or adjustments, or performance of procedures other than those specified herein, may result in hazardous radiation exposure.
- Caution

Do not open do not attempt to repair, disassemble or modify this appliance. Dangerous high voltages exist inside this appliance. This appliance is only to be serviced by Singer Service Technician. There are no user-serviceable parts inside. Do not look at laser pick-up directly. Do not touch the lens.

Installation Warnings

Ventilation Slots and openings in the case are provided for ventilation to ensure reliable operation of the video product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or heat register. This product should not be placed in a built-in installation such as a bookcase or rack, unless proper ventilation is provided or the video product manufacturer instructions have been followed.

Outdoor Antenna Grounding If an outside antenna or cable system is connected to the video product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and buildup static charges. ANSI/NFPA No. 70-1984 provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

Power Lines An outside antenna system should not be located in the vicinity of overhead power lines, other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching or approaching such power lines or circuits, as contact with them might be fatal. Installing an outdoor antenna can be hazardous and should be left to a professional antenna installer.

Lightning For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the video product due to lightning and power line surges.

Compulsory Warnings

If the supply cord is damaged, it must be replaced by Singer service Technician, in order to avoid a hazard. This product has not been designed for any uses other than those specified in this booklet.

Laser Safety

This compact disc player is classified as a CLASS 1 LASER PRODUCT.

Only qualified service personnel should remove the cover or attempt to service this device due to possible eye injury.

Invisible laser radiation when open and interlock failed or defeated.

Avoid direct exposure to beam.

ESSENTIAL SETUP

Video outputs

The player is equipped with the following video output ports:

Composite Video and **S-Video** always

active, does not need setting.

INTRODUCTION

Loading batteries to the remote control

- Remove the battery compartment cover.
- Load two AAA (UM-4 or R03) batteries into the battery compartment.
- Make sure that the batteries have been inserted in the correct polarities matching to the symbols +, - marked in the battery compartment. Close the battery compartment cover.
- When replacing batteries, replace both batteries. Do not mix new and used batteries operating together, otherwise, the operation lifetime will be much shorter than normal.
- Remove the batteries if the unit will not be used for a prolonged period of time.

The remote control transmits a directional infrared beam. Be sure to aim the remote control directly at the infrared sensor of the unit during operation.

If the sensor has been covered or there is a large object between the remote control and the sensor, the sensor will not respond.

The sensor may not be able to receive the remote signal when it is exposed to direct sunlight or a strong artificial light (fluorescent or strobe light). In this case, change the direction of the light or reposition the unit to avoid direct lighting.

Within approximately
6 meter (20 feet)

BE ENVIRONMENTALLY FRIENDLY

Do not dispose of batteries as normal rubbish. Be environmentally friendly, dispose of batteries following the Government's regulation.

About DVD

DVD (Digital Versatile Disc) is a digital video medium under the MPEG II format, featuring a variety of revolutionary entertainment capabilities. The MPEG II video compression technology provides capacity for an excellent picture of minimum 500 lines resolution on screen, up to 8 language soundtracks, up to 9 views from different camera angles and up to 32 language subtitles (provided the DVD disc itself supports these features).

Disc information

Disc types	DVD	CD
Recording Method	Digital / MPEG II	Digital
Capacity	Single-layer / Single side 4.7GB = 2 hr Single-layer / Double sides 8.5GB = 4 hr Double-layers / Single side 9.4GB = 4.5 hr Double-layers / Double sides 17GB = 8 hr	650MB=74min
Disc size	12cm / 8cm	12cm / 8cm
Horizontal Resolution	500 lines up	-
Sub-titles	32	-

REMARK

Some features contained in this DVD player are related to the DVD disc's software.

Some features cannot be performed if the disc does not support the feature, or requires special settings.

Check the features printed on the disc's packing or follow the instructions of the Disc's on screen menu.

Select a DVD disc

DVD Region Code

DVD discs and DVD players are manufactured under the worldwide agreed DVD Regional Code System that the player will operate only with corresponding disc of the same Regional Code.

Region code	Region
1	Canada, USA
2	Europe (incl. Poland, Romania, The Czech republic), Japan, Middle East (incl. Saudi Arabia, Egypt, Iran, South Africa)
3	East Asia (incl. Hong Kong, Taiwan, South Korea), South-East Asia
4	Australia, Caribbean, Central & South America, Mexico, New Zealand
5	Africa, Former Soviet Union, India, North Korea, Pakistan, Turkmenistan
6	China

Care of disc

Video disc contains high-density compressed data that needs proper handling

- Hold the disc with fingers. Hold the disc's outer edge and/or the center spindle hole. Do not touch the disc surface.

- Do not bend or press the disc. Do NOT expose the disc to direct sunlight or heating sources.

- Store discs in cabinet vertically, in dry condition.

Prevent exposure to:

- Direct sunlight
- Heat or exhaust from a heating device.
- Extreme humidity

- Clean the disc surface with a soft, dry cleaning cloth. Wipe the disc surface gently, radially, from center toward the outer edge.

- Do not apply thinner, alcohol chemical solvent, or sprays when cleaning. Such cleaning fluids will permanently damage the disc surface.

Notes

The remote control transmits a directional infrared beam. Be sure to aim the remote control directly at the infrared sensor during operation. When the sensor is covered or there is a large object between the remote control and the sensor, the sensor cannot receive signals. The sensor may not be able to receive signals properly when it is exposed to direct sunlight or a strong artificial light (such as a fluorescent or strobe light). In this case, change the direction of the light or reposition the unit to avoid direct lighting.

SYSTEM CONNECTION

Preparations

Accessories

1. Remote controller
2. Audio/Video cable
3. User's manual
(check whether be fully equipped after open the box)

Battery installation of remote controller

Place two AAA batteries into the battery compartment. Be sure the polarities are correct. There should be no large obstacles between the remote controller and the main unit.

System connection(Optional according to your back panel)

1. When making connection between this unit and other components, be sure all connection with power-off.
2. Audio/Video cables are connected according to the different colour identification and they should be fitted firmly.

- Yellow to video terminal
- White to audio terminal L,
- Red to audio terminal R,

3. Scheme of connection

● 2CHANNEL CONNECTION

GETTING STARTED

- Unpack the unit.
- Read through this owner's manual before installation and use.
- Load batteries into the remote control unit.
- Connect the system, make sure the connections are secured.
- Connect the power plug to the AC power outlet.

REMARK

Some features contained in this DVD player are related to the DVD disc's software. Some features cannot be performed if the disc does not support the feature, or requires special settings. Check the features printed on the disc's packing or follow the instructions of the Disc's on screen menu.

Play a disc

Switch on the player

Push the main power button to turn on the DVD unit. Power on the TV set and the amplifier if connected.

Press **EJECT** button on the remote control (or front panel) to open the disc tray. Load a disc and press **EJECT** to close the disc tray
(Note, place the disc's label side up, blank side down)

Load a disc

Automatic Play

The unit will take a few seconds to download the disc initial data, display the disc type logo in the left upper corner of the TV screen, and then start playing automatically.

If a DVD Disc Menu appears on screen

Press **PLAY** button on the remote (or on the unit) to start playing.

Or

Press **CURSOR** buttons to select the desired feature in the menu,

And then press the **ENTER** button to confirm a selection.

NOTE Normally, when a MP3 disc is loaded, the unit will take longer time to download the initial data.
DVD disc that does not match the region code cannot be executed by this player.

Return to the disc main menu, press **MENU** button on the remote.
Prevent loading the disc upside down.

Screen saver

The player is equipped with an automatic screen saver, for the purpose of protecting the TV screen.

The TV screen will be black and a screen Saver  will appear on screen if :

- No disc is loaded for 180 seconds
- In STOP mode and no button has been Pressed for 180 seconds.
(except in the player or disc menu)

When any button is pressed, the player will resume to normal active mode.

FUNCTION BUTTONS

Power ON / OFF

POWER ON /OFF

To switch the player Between power on and off mode:

Press **POWER** button on front panel

(Always switch off the player after use)

Open /Close disc tray

To open and close The disc tray:

Press **EJECT** button  on the remote

Play / Pause / Stop

1 Press PLAY button 

To play the Disc

2 Then Press PAUSE button 

to pause.

Press  to resume normal playback.

3 Press STOP button

to stop in two modes:

- a) Press **Once** : STOP memorizes the interrupt position.
(May resume with Play button )
- b) Press **Twice** : To stop completely
(Will NOT resume with Play button)

Skip Forward / Backward

- 1 Press to skip forward (chapters)
- 2 Press to skip backward (chapters)

Player will not advance or reverse during "WARNING" section of any disc.

Forward / Backward

The unit mode

- 1 Press to Search forward
Repeat pressing the button to change search speed
- 2 Press to search backward
Repeat pressing the Button to change search speed
- 3 Press PLAY button to resume normal playback

Player will not advance or reverse during "WARNING" section of any Disc.

Slow Forward

The unit muted in SLOW mode

- 1 Press to play slow forward
Repeat pressing the Button to change slow forward speed
- 2 Press PLAY button to resume normal playback

Select an item in menu

In the disc menu or setup menu

- 1 **press cursor button** to move between function items.
- 2 **Press**  to confirm a selection.
- 3 **Press**  to cancel an entry.
- 4 **Press**  to return to the previous menu.

Disc Title /Menu

- 1 **Press MENU button**  return to the DVD disc Menu.
- 2 **Press TITLE Button**  return to the DVD disc Title.

Disc MENU Disc menu is a DVD disc feature, allowing users to select functions on screen.

Disc TITLE Disc title is the beginning track of a DVD disc. Some DVD discs refuse the "TITLE" function.

Clear

- 1 Setting program or searching need to input number. press **CLEAR**  button to clear the number when the input number is wrong.

Numeric Key Pad / Direct Program access

Direct Program access

- Input the desired Chapter or Track number using the Numeric key pad. Press ENTER button to confirm your direct access Chapter or key selection.
 - Chapter - when Playing a DVD disc, or
 - Track - when playing a CD or Mp3 disc

NOTE Program functionality depends on different DVD disc's format, some DVD discs do not allow direct access function.

Multi-Angle

A DVD disc may contain up to 9 selectable viewing angles.

If a DVD disc contains Multi-Angle feature, viewing angles may be selected:

- During in playback, repeat pressing **ANGLE** button  to select the desired viewing angle. Status will be displayed on screen..

Multi-Subtitle

If a DVD disc contains the Multi-Subtitle feature, subtitle may be selected:

- 1 **During in playback, repeat pressing SUBTITLE button**  to select the desired subtitle. Status will be displayed on screen.

NOTE

A DVD disc may contain up to 32 subtitle selections.

Multi-Audio Soundtrack

If a DVD disc contains Multi-Audio Soundtrack feature, Audio Language can be selected:

- 1 **During in playback, repeat pressing LANGUAGE button**  to select the desired audio language. Playback status will be displayed on screen.

NOTE

A DVD disc may contain up to 8 audio language selections.

In most cases, an Audio Soundtrack selection will be displayed on a DVD disc start up menu.

Press **CURSOR** Button to select and **ENTER** button to confirm.

V-Mode

- ① First, You should press [STOP] Key 
- ② Press [V-MODE] key  Videomode switch again.

In the condition of NORMAL mode, press [V-MODE] key may select S-video, YUV, RGB, YPbPr, VGA output.

- To use this function, your TV Set must have progressive scan features.

Reset

- ① First, You should press [STOP] Key 
- ② press "RESET" button on the remote, this option will resume the original Settings of this machine.

SEARCH a desired section

 This function does NOT apply to MP3

- 1 Press the **SEARCH**  button to play at a desired Title, Chapter or Time.

DVD disc

- Press the **SEARCH**  button select SEARCH Mode.
 Press **DOWN**  button highlight desired item.
- TITLE** --- Input title number
CHAPTER --- Input chapter number
TIME --:--:-- Input time hh:mm:ss
 (Hour : Minute : Second)
- Press **ENTER**  button.

CD disc

- Press the **SEARCH**  button to T rack Search mode.
 Press the **SEARCH**  button again to Disc Search mode.
- TIME** --:--:-- Input time hh:mm:ss
 (Hour : Minute : Second)
TRACK --- Input track number XXX
 (Track Number)
- Press **ENTER**  button.

NOTE

- SEARCH functionality depends on different DVD disc's format. Some DVD discs do not allow SEARCH function.
- SEARCH does NOT function during Program playback.

Repeat

- 1 Press REPEAT  button multiple times to reach desired repeat mode (see below).

DVD disc

Repeat Chapter Repeat the Chapter
 Repeat Title Repeat the Title
 Repeat Off Repeat function off

CD disc

Repeat Single Repeat the existing track
 Repeat All Repeat all tracks
